

## Technical Talent Resource Services

Technical Talent Services is one of our core specialties. Our unique experience in IT, Engineering, and Service Industry has conditioned us to understand the needs of our clients. Our recruiting team is made up of individuals who are IT educated professionals themselves.

Our pioneering approach to rapidly identify needs and deliver the right resources across the continuum of IT recruitment and staffing services can drastically reduce costs and increase IT recruiting and staffing return on investment (ROI). Our Talent hire practice is to focus on technical experience, adaptability, and retention of our resources that directly aligns with our clients current and future needs.

Lex Nimble recruiting consultants and client service managers have successfully helped companies deliver on the IT outcomes they needed to achieve.
